Work Experience

April 2023 -
Jul 2023

VSH United N.V. VERENIGDE SURINAAMSE HOLDINGMIJ
VLBTO – ICT Management Assistant (MBI) | Intern

During my education and internship, I gained hands-on experience performing the core tasks of an ICT professional in a workplace setting. As an MBI graduate, I assemble, install, and configure information and communication systems, set up cabling infrastructure, and support users in the daily use of these systems. Holder of a VLBTO (MBI) diploma.

April 2025 -
Jul 2025

Blu Dots Technology
Application Developer | Intern

During my internship, I performed the core tasks of an application developer in a professional environment, focusing on the development of both complex and less complex applications. The main responsibilities of an application developer include designing, developing, and implementing (parts of) software and IT media products, such as operating programs, application programs, network programs, web-based applications, and interactive media such as CD-ROMs and websites. Holder of an MBO diploma.

Jun 2025 -
Aug 2025

TNT Electronics
Social Media Marketing

Responsible for managing social media channels and promoting products and promotions. Created engaging content to increase visibility, strengthen customer engagement, and drive sales.

IT Consultant

Experience

Jamaica - STEAMHouse

Crea+her Girls in ICT 2024 Hackathon 17 - 04 - 2024 tot 25 - 04 - 2024

Participated as a member of Sranan Techies, applying and further developing my skills and abilities in a practical setting. The hackathon promotes greater representation of women in the IT sector, and our team achieved 4th place.

The event serves as a platform for young women across the Caribbean to take on leadership roles in STEM. It provides an opportunity to drive change, foster innovation, and inspire a new generation of female tech pioneers.

Suriname - Datasur

Hack The Future AI-THON 07 - 10 - 2024 tot 27 - 10 - 2024

During this hackathon, I collaborated with my team to develop an AI-powered application focused on Education. The application was designed to provide practical value to Surinamese society and address real-world challenges. Throughout the event, we applied our creativity, problem-solving skills, and teamwork in a hands-on, collaborative environment with other innovators.

IT Consultant

Experience

Suriname - Baitali

Baitali NEXT Student Challenge 06 - 12 - 2024 tot 31 - 01 - 2025

During this competition, my team worked on the theme "Agriculture: Focus on Sustainability, Innovation, and Food Security." We developed an application that provides farmers with an overview of their agricultural activities, including information on food production and weather conditions.

The competition focuses on sustainable agriculture and food systems, where student teams create innovative and eco-friendly solutions. The event highlights the potential of young people to develop economically viable and environmentally responsible ideas.

Suriname - e-Government Suriname

Girls in ICT Day 2025 Animatie video Wedstrijd 04 - 04 - 2025 tot 24 - 04 - 2025

During this competition, I collaborated with my teammate as a member of team Synawave to develop an animation video about e-GOV, clearly and engagingly illustrating the process of creating a Digital ID. Thanks to our creative and effective approach, we achieved 1st place in the competition.

The competition, organized as part of Girls in ICT Day, encouraged young women from high schools to develop creative solutions around the theme of Digital ID, supported by sponsor OX88.

Experience

Suriname - Creative Tech Hub Caribbean

Facilitator voor de Meta Skills Programma

28 - 07 - 2025 tot 05 - 08 - 2025 & 09 - 09 - 2025 tot 12 - 09 - 2025

As a facilitator at Creative Tech Hub Caribbean, I was responsible for guiding and coaching students during the final phase of the Shell MetaSkills Program 2.0. In this role, I supervised, modeled professional behavior, and created a supportive, energetic learning environment where students were encouraged to explore, build, collaborate, and confidently present their ideas. During this period, I further developed my leadership skills and contributed to the success of the program.

Hackathon Sprint

17 & 18 nov 2025

The fourth edition of the Datasur Hackathon brought together students from various technical disciplines—including ICT, Software Development, Engineering, and Data Science—to work in multidisciplinary teams developing mobile applications that address societal challenges. Participants came from institutions such as PTC – University of Applied Sciences, UNASAT, NATIN, and AdeKUS.

Our team, Sranan Techies, achieved 3rd place with BudgetBuddy, an AI-powered personal financial assistant that provides users with insights into their spending behavior and translates financial information into clear action points.
